ACCOMPLISHMENTS IN THE FIELD of ART and CREATIVITY

- May 2015 *My educational art website www.perception4u.com is up in its completed version.*
This website, designed for artists as well as the lay person, guides people through four main levels of perception. Many of my paintings were created specifically to give visual expression to the points being made.
- July 2016 *The publication of my illustrated book, "Tobe and the River Is"*
The book arose out of my experiences as an artist, weaving in many of the concepts of my art website. Through the experiences of the protagonist the reader is opened to heightened states of awareness and sensativity. The book has won the Nautilus, Ben Franklin, and the New Apple Book Awards, as well as two Global Ebook Awards, one for illustrations. (www.4riveris.com)
